You will see a I have bought an old machine and trying to get it working. Try it without the bill acceptor attached to get the machine working. You I would really like to find the OPERATION manual. For details about how to set price, load product, ECT. For details about how to set price, load product, ECT. Check out this video By the way, the word is accept, not except which is a contraction of exception.. If no product is evident, The blinking and. Answer questions, earn points and help others. That is great, now if I can fix this 180 with out letting the smoke out of anything. Thank you very much for the help. T handle lock or door gasket 8502596469 Keith SnowIm glad it helped! Good luck with your machine! 8 FlightfanaticThanks for putting the manual up to share.I am unable to find it. Create one here. Creators are allowed to post content they produce to the platform, so long as they comply with our policies. United Kingdom. Company number 10637289. Have a few questions What button goes to each column.I'm going to print my ownFirst two wide columns are probably selection 1 and they alternate. The third wide column far left is selection 2, and then the narrow columns are selections 37 from right to left.A 368 has 4 wide and 4 narrow columns. In a Coke configuration with only 7 buttons, button 1 controls and alternates columns 1 and 2 on the far right then each of the next buttons goes to col 38 in that order. The machine is single price so the pricing is inside the coin mech. Push up the coin acceptor locks on the top corners of the coin mech and the acceptor can be pulled down to expose the pricing switches. The far left switch is .05 and each switch moving right doubles in value. Turn on the switches that total the vend price you want to set your price.Its easy! Sign in here.
