Book Descriptions:

case cx31b manual

The optional angle blade decreases the time required to backfill a trench while options such as thumbs and augers increase the machine's productivity, maneuverability, and performance. Ground level fluid checks make daily maintenance quick and easy, resulting in maximized uptime. Rapid machine positioning and simultaneous moves of the swing boom and house are accomplished via the foot pedal swingboom control. For operators working in inclement weather, an enclosed cab with both heat and air conditioning are available options. Responsive performance and low fatigue are delivered through the smooth, intuitive pilot controls. Grouped hydraulics and rear engine access provide the ability to do daily checks in no time at all. Your CASE dealer can help you determine the plan that fits your needs. The CASE Warranty remains in effect during the Warranty Period if the owner performs the required maintenance at the recommended intervals outlined in the product's operator's manual and the unit is operated within its rated capacity. Genuine CASE service parts or CASE approved service parts that meet CASE specifications must be used for maintenance and repairs. Request a quote today for more information.
